Society at Akron Scandalized.
AKRON, O., July 29.—Two of the leading society people of northern Ohio are involved in the scandal which resulted from the arrest of George H. Hill and Mrs. Virginia H. Sperry, both of Akron, at the Crittenton hotel, Columbus, on Tuesday night. Mrs. Sperry arrived at the hotel and registered as Mrs. V. S. Hervey of Cincinnati. Hill arrived a little while afterward and registered in his own name. They were staying at the same room and a little after midnight Hill was found taking a bath in the room occupied by Mrs. Sperry. They were arrested and taken to the police station. A charge of disorderly conduct was made against them. Hill paid up money to cover the fines and costs and both left.

Grace Makes an Awful Threat.

NEW YORK, July 29.—It is stated on reliable authority that ex-Mayor Grace has practically notified President Cleveland that unless a more definite and pronounced course is pursued by the administration toward the Croker-Murphy-Billings machine he and his anti-slavery

MEXICO'S PROBLEMS

AS SEEN BY THE BRITISH MINISTER TO OUR NEIGHBOR.

The Republic Cutting Down Expenses—Interviews From the United States Eagerly Read.

NEW YORK, July 29.—Sir Spencer St. John, K. C. B., who for ten years has been British minister to Mexico, sailed from this city the other day on the steamer *Servia*, bound for England.

Sir Spencer St. John has been in the British diplomatic service forty-five years, during all of which time he has been stationed in the tropics. His recall from Mexico is due to a promotion, and after a few weeks' stay in England he will proceed to Stockholm, Sweden, as British minister there. He is about 65 years old. His hair and mustache are gray, and his complexion ruddy. In manners and general appearance he is an ideal diplomat.

To a reporter who called on him at the Hoffman House, where he stopped during his few days' stay in New York, he said: "In Mexico they are following the silver question in the United States with the most lively interest. The Mexican newspapers are giving almost as much space to the matter as are the papers of the United States. Interviews with your prominent men on that subject are published in the Mexican papers and read with much interest by the people."

Mexico, as you no doubt know, is one of the largest silver-producing countries in the world, and it is but natural that the people should take a lively interest in the action of this country regarding the white metal.

The probable repeal of the silver purchasing clause of the Sherman law has already had the effect in Mexico of increased attention to gold mining. At the same time the mining of silver has gone on uninterrupted. Not a single silver mine has closed down as a result of the agitation here, but I understand that less than half of your mines in this country.

As a matter of fact, the cost of mining silver in Mexico is so low that should the price go to the lowest possible limit it will continue to be remunerative.

The Mexican silver miners work hard, but I do not think the miners will feel it occurs, which compete with cotton, coffee, vanilla and tobacco, in addition to silver, help to profit the miners. The only really important item of importation is mining machinery.

"The wages paid to miners in Mexico range from \$20 to \$30 a day. The average miner considers even the foreigner good remuneration for his services, as they are able to raise enough corn for their maintenance, and only need money for clothing.

"As I have already said, very much more attention is being given to gold mining in Mexico, and this will never agitate the miners in silver, as they are able to raise enough corn for their maintenance, and only need money for clothing.

"The tobacco industry has increased of late years considerably. Very little of it goes to the states, but it is becoming well known in Hamburg and London, where Mexican cigars are in great demand.

"Mexico can scarcely be said to have an illumination question, the difficulty there being to induce absentees from Europe to emigrate to settle in the country.

"There is, however, a strong feeling against the Chinese. I believe if the Chinese were encouraged to come to Mexico, they would soon convert its west coast into a garden of flowers. There is no legal restriction against the Chinese, as there is in the United States, but they are encouraged to come.

"It is probable that a number of thriving Japanese colonies will soon be established on the west coast of Mexico. Before I left several agents were already in that part of the country preparing for the arrival of their countrymen.

"During my stay in Mexico I have never, strange as it may seem, heard an opinion expressed about the Negroes' case. The Mexicans entirely ignore that subject.

"Their interest is mainly centered in a railroad that is being built, which is to connect the gulf of Mexico and the Pacific ocean, and will run 1,000 miles.

"A road has already been completed, but the government, because of the depression in silver, which I have already explained, finds itself unable to proceed with the work."

Would Not Help Disgrace Girls.

NEW YORK, July 29.—The Presbyterian board of foreign missions of this city has received a letter from one of its missionaries in Siam, which says:

"Ya, a Siamese noble, came and asked for a girl to go and teach English to a princess. I told him we had no girls advanced enough except our own teachers. That was not our fault, for we had no teacher or master to waste in training and educating them to send out to the temptations and difficulties of life in the king's retinue of wives and children. Only last week I refused a request of the queen for some girls to go and assist at the palace in some ceremonies sent to me. It is rather hard to say no to royalty in such a trifling case."

Cook & Terry, retail successors to Pakes & Co., carry a full and complete line of furniture, carpets, matting, lace, sheer curtains, window shades and draperies, etc. Give us call. Prices made to suit the times. Goods sold on easy terms. Carter Third and Houston.

For beautifully illustrated catalogue send your address to J. D. BLANTON, Nashville, Tenn.

A Toledo man, whom a friend asked one day last week why he had such a blank look, replied that it was too warm to wear anything he was not compelled to, not even an expression.

Cole & Terry, retail successors to Pakes & Co., carry a full and complete line of furniture, carpets, matting, lace, sheer curtains, window shades and draperies, etc. Give us call. Prices made to suit the times. Goods sold on easy terms. Carter Third and Houston.

IUB FAMINE NO MORE.

Beginning Monday morning, July 10, we will have a car load of clear artesian ice every morning in the Santa Fe yards on Twelfth and Grove streets, and will be prepared to furnish ice to dealers direct from the car at any time after 3 o'clock. Price, 20 cents per hundred.

FORT WORTH PACKING CO.

The real disgrace of the American cabinet is said to be neither Columbus nor Leif Ericson, but undoubtedly Biarritz or Norwegian. He visited the coast of Nova Scotia in A. D. 982.

contingent will wish their hands of financial politics and leave the administration to make its own way in this state. Grace herself says that he is out of politics for good if Cleveland goes back on the anti-slavery, and he is about ready to give the president some blunt facts about the manner in which "Dan" Lamont is using him for the protection of the Whitney street railway interests in this city.

Quincy Will Resign.

BOSTON, Mass., July 29.—Mr. Josiah Quincy says that he is not a candidate either for the governorship of Massachusetts or the mayoralty of Boston. Mayor Matthews, he says, is likely to be the Democratic candidate for governor if he will consent to accept the nomination.

Said Secretary Quincy: "While it is an open secret that I do not mean to remain in Washington through the present administration, I have not yet made up my mind whether or not I have any present intention of doing so. I shall return to Washington when congress meets and resume my duties there, and am not giving any thought whatever to future political preferment."

A TREMENDOUS SHAKING UP.

This is not an easy system afflicted with shakiness and tremors, and is liable to another form of material disease, undergoing periodically. Not only is mania terrible in itself, but it is the breeding of an infinity of other maladies, such as epilepsy, insanity, prevention and removal prove, in the vast majority of cases, useless for every other purpose than to mitigate the disease and secure the average treatment in return for the trouble.

The sufferer may change his habitation to a healthier one, but the complaint will follow him. This is the reason why so many of us are plagued with the nerves, heart trouble, general debility of the system, etc., which complicate our physical injury with Hostetter's Stomach Bitters, effusions also in liver, complaint, inactivity of the kidneys, rheumatism and indigestion.

Benjamin d'Israeli could not write save in an elegantly furnished room, himself attired in evening dress.

Add 20 drops of Antiseptic Bitter to every glass of water, also drink 10 drops of the genuine only manufactured by Dr. Siegenthal & Sons. Ask your druggist.

The proposed tower on the City hall of San Francisco is estimated to cost about \$400,000.

VOCAL AND INSTRUMENTAL MUSIC.

Miss E. Hendrick will reopen her class of vocal and instrumental music Sept. 4. Will have a few vacant periods for new pupils. Some new methods secured while in Chicago. Apply at university.

Of every ten thousand deaths in the United States 1429 are from consumption.

ADVICE TO MOTHERS.

Mrs. Winslow's Soothing Syrup for children teethills, colds, the chil, softens the gums, allays pain, cures warts, etc., and is the best remedy for children 23 cents a bottle.

Paper making ranks among the industries of the United States. Last year there were about 1000 mills in operation in this country, having an annual capacity of about 16,000,000,000 pounds of paper.

POLAND-CHINA HOGS.

I have a number of fine registered Poland-China hogs of all ages, which I will sell cheap. Will ship pigs by express to any part of the state. July 21, 1893.

FORT WORTH'S

Greatest Retail Drug Store.

The Fort Worth Pharmacy company, corner Main and Fifth streets, is the great retail drug emporium and fountain-head for all kinds of drugs, medical, surgical instruments, mechanical curatives, dental, aged eye glasses and spectacles, near-sight eye glasses and spectacles, colored and smoked glasses for weak eyes, perfumery, brushes, combs and all kinds of toilet goods. Prescriptions a specialty. We invite mail orders. Reader, your patronage is solicited.

"CROPS WILL BE GOOD."

"The harvest prospects in Mexico this year are excellent. The crops will more than supply the demands of the poor harvests of the two preceding years. Of the four staples corn, coffee and vanilla are expected in addition to silver, which compete with cotton, coffee, vanilla and tobacco, in addition to silver, help to profit the miners. The only really important item of importation is mining machinery."
